

P403 / P404

Manually operated plastic strapping tools

Ideal and handy light tools for a wide variety of standard, vertical and horizontal applications

P403 / P404

Manually operated plastic strapping tools with seal joint

Both models are light-weight devices, suitable for strapping and sealing flat packaged goods (e.g. pallets, bales, crates and packages of all kinds) with plastic strap. They are characterised by reliability, strength, and maintenance-friendliness and can also be used outdoors as portable device. High strap tensions are possible thanks to the tensioning drum. A high joint strength is also guaranteed with spezial seals and the patented sealing mechanism. With the separate sealing lever the straps are joined in a flash with a single stroke.

Advantages:

- Handy light weight tensioing and sealing tool to strap flat packages using plastic strapping
- A reliable, robust and service-friendly tool
- The windless tensioning system allows very high strap tension
- Special serrated seals and the patented sealing force balance system guarantee a very high seal joint efficiency
- The sealing handle is always operated until it hits the stop - thus the seal efficiency of all joints is high and balanced

Characteristics

S trapping qualities: S trapping dimensions: widths thicknesses

Weight: Dimension: Type of joint: Average seal strength:

P403

PP & PE T 11.0 - 13.0 mm 0.40 - 0.90 mm 3.3 kg L337 x W 105 x H149 mm joint with special seals up to 70 % (dep. on strap quality)

P404

PP & PE T 15.0 - 16.0 mm 0.50 - 0.90 mm 3.8 kg L376 x W128 x H244 mm joint with special seals up to 70 % (dep. on strap quality)
